(2) Every award prepared under subsection (1) shall be filed in the office of the Land Administrator and shall be final and conclusive evidence of the area of any scheduled land, of its value in the opinion of the Land Administrator, and of the apportionment of the compensation awarded by the Land Administrator, whether the persons interested therein have or have not appeared at the enquiry.

(3) An award under this section shall not be invalidated by reason only of the fact that the area in respect of which the award is made is greater or smaller than the area of scheduled land:

Provided that the difference between the area in respect of which the award is made and the area of scheduled land does not exceed one quarter of a hectare or one per centum of the area of scheduled land, whichever is the greater:

(2) A summary enquiry shall be held in such manner and at such place or places as the Land Administrator may think fit and, on enquiring into the respective interests of all persons claiming compensation or who in his opinion are entitled to compensation in

28. Whenever as a result of a survey made in accordance with subsection 25(1) a difference is found to exist between the area of any land acquired and the area of scheduled land specified in an award under section 14, such difference shall be valued at the same rate as that at which the land in question has been valued in the award in Form G.

Payment of Compensation

Payment of compensation or deposit in Court

29. (1) After a notice of award in Form H has been served in the manner prescribed by section 53 upon all interested persons the Land Administrator shall, as soon as may be, make payment of each amount awarded to the person entitled thereto unless—

- (a) there shall be no person competent to receive such payment;
- (b) the person entitled thereto does not consent to receive the amount awarded; or

(2) If within the period specified in paragraph (1)(a) no such objection as is referred to in paragraph (b) of that subsection is made, then, as soon as may be after the expiry of that period, the Land Administrator shall make to the person entitled thereto payment of the amount withheld under paragraph (a) of that subsection.

(3) If such final determination results in a reduction of the amount of compensation, the amount withheld or so much thereof as equals the amount of the reduction, as the case may be, shall become free of all claims in respect of the compensation, and the remainder, if any, shall, as soon as may be, be paid to the person entitled thereto.

(4) If such final determination does not result in a reduction of the amount of compensation, the amount withheld shall, as soon as may be, be paid to the person entitled thereto.

(5) The Land Administrator shall pay on every amount paid under subsection (3) or (4) late payment charges at the rate of eight per cent per annum from the time of payment of seventy-five per cent of the amount of the award until the time of payment of the first-mentioned amount.

32. (1) When the amount of any compensation awarded under this Act in respect of any land is not paid or deposited on or before the due date, the Land Administrator shall pay the amount awarded with late payment charges thereon at the rate of eight per cent per annum from the due date until the time of such payment or deposit.

(1A) In its application to an award the payment of which is subject to section 29A, subsection (1) shall be construed as if the reference therein to the amount awarded were a reference to seventy-five per cent of the amount awarded.

(1B) Where, in the case of an award the payment of which is subject to subsection 29A(1), seventy-five per cent of the amount of the award is not paid or deposited on or before the due date in relation to the land in respect of which the award is made, the Land

49. (1) Any person interested, including the Land Administrator and any person or corporation on whose behalf the proceedings were instituted pursuant to section 3 may appeal from a decision of the Court to the Court of Appeal and to the Federal Court:

Provided that where the decision comprises an award of compensation there shall be no appeal therefrom.

(2) Every appeal under this section shall be presented within the time and in the manner provided for appeals in suits in the High Court:

Provided that the time within which an appeal may be presented shall only be capable of enlargement by order of a Court in such special circumstances as the Court may think fit.

Costs may be apportioned

50. The cost of all proceedings under this Part, other than those arising from an objection to the amount of an award, shall be borne by the persons interested, in such proportions as the Court may determine.

Costs

51. (1) In any proceedings arising from an objection to the amount of an award, costs shall be borne in accordance with the following provisions:

- (a) where the amount of the Court award does not exceed the sum awarded by the Land Administrator the costs shall be paid by the applicant;
- (b) where the amount of the Court award exceed the sum awarded by the Land Administrator, the costs shall ordinarily be paid by the Land Administrator, but if the Court is of opinion that the claim of the applicant was so excessive or that he was so negligent in putting his case before the Land Administrator that some deduction from his costs should be made, or that he should pay a part of the Land Administrator's costs, the Court may make such order as to costs as it may think fit;

(c) where the claim of the applicant made pursuant to any notice under section 10 or 11 exceeds by twenty per cent or more the amount of the Court award, he shall not be entitled to his costs.

(2) The costs, if any, payable by the applicant may be recovered as if they were costs incurred in a suit in the High Court and as if the award were the decree therein.

PART VI

SERVICE OF NOTICES

Public notice

52. Whenever it is provided in this Act that public notice (otherwise than by notification in the *Gazette*) shall be given of any notification, declaration or other document, sufficient notice thereof shall be deemed to be given if the Land Administrator shall cause copies of such notification, declaration or document to be posted at the District Land Office, on public notice boards in the mukim or township in which the land to which such notification, declaration or document refers, is situated and in such other places on or near the lands specified in that notification, declaration or document as the Land Administrator may think fit.

(b) to any adult member of his family residing with him,

and by obtaining the signature of the person to whom such copy is delivered or tendered to an acknowledgement of service endorsed upon the original document or an office copy thereof, or entered in a book to be kept for that purpose.

(4) In each of the cases referred to in subsections (2) and (3) the serving officer shall enter on the original of the document served, or on an office copy thereof, or in a book to be kept for that purpose, a statement of the time, place and manner in which he effected the service, and shall sign such statement.

Omission, etc., not to invalidate proceedings

56. No omission or failure to make due publication of a notice or to make due service upon persons and parties interested as provided in this Part shall invalidate any proceedings under this Act.

PART VII

Temporary occupation or use of land

57. Whenever it appears to the State Authority that the temporary occupation and use of any land is needed—

- (a) for any purpose specified in section 3; or

Offer of compensation

58. (1) On receiving any direction under section 57 the Land Administrator shall give notice in writing in Form Q to the persons interested in such land of the purpose for which the land is needed, and shall make such offer of compensation, or shall negotiate the payment of such compensation, as shall be reasonable in all the circumstances of the case.

(2) Compensation under subsection (1) may be in the form of a single sum of money, in the form of periodical payments of money, or in such other form as may be agreed.

(3) In making any assessment of compensation under this section the Land Administrator shall, where the land is required in order to carry out public works, take into account any increase in the value of the land to be occupied or used, or any advantages which will accrue to any person interested therein, by reason of the purpose for which such public works are being carried out.

Restoration of land, etc.

59. On the expiration of the term of occupation or use referred to in section 57 the land shall be restored to the condition it was in before such occupation or use and, failing such restoration, compensation in addition to that referred to in section 58 shall be paid for any damage done to the land, or for the extent by which the value of the land has been reduced by reason of such occupation or use.

Reference where compensation cannot be agreed

60. Where the Land Administrator is unable to agree with the persons interested on the amount of compensation to be paid under section 58 or 59, or on the apportionment thereof, or as to the condition of the land at the expiration of the term for which it is occupied or used, the Land Administrator shall refer such difference to the Court for its decision.

Where land is needed for access

61. Where the State Authority is satisfied that any land referred to in section 57 is needed solely as a means of access to any other land, then—

- (a) the right of access so acquired shall extend to the passage of vehicles of all kinds including heavy machinery, whether owned or operated by the authority responsible for the public works or by any contractor or servant employed by such authority; and

FIRST SCHEDULE

[Sections 12, 35, 46 and 47]

PRINCIPLES RELATING TO THE DETERMINATION OF
COMPENSATION

Market value

1. (1) For the purposes of this Act the term “market value” where applied to any scheduled land shall mean the market value of such land—

- (a) at the date of publication in the *Gazette* of the notification under section 4, provided that such notification shall within twelve months from the date thereof be followed by a declaration under section 8 in respect of all or some part of the land in the locality specified; or
- (b) in other cases, at the date of the publication in the *Gazette* of the declaration made under section 8.

(1A) In assessing the market value of any scheduled land, the valuer may use any suitable method of valuation to arrive at the market value provided that regard may be had to the prices paid for the recent sales of lands with similar characteristics as the scheduled land which are situated within the vicinity of the scheduled land and with particular consideration being given to the last transaction on the scheduled land within two years from the date with reference to which the scheduled land is to be assessed under subparagraph (1).

(1B) Where only a part of the land is to be acquired, the market value of the scheduled land shall be determined by reference to the whole land as shown in the document of title of the scheduled land and after having regard to the particular features of that part.

(1C) In assessing the market value of any scheduled land, regard shall not be had to the evidence of any sales transactions effected after the date with reference to which the scheduled land is to be assessed under subparagraph (1).

(1D) Where the scheduled land to be acquired is held under a title for a period of years, in assessing the market value, regard may be had to the date of expiry of the lease as shown in the document of title, but regard shall not be had to the likelihood of a subsequent alienation to the person or body who is the proprietor thereof immediately before the expiry of the lease.

(2) In assessing the market value—

- (a) the effect of any express or implied condition of title restricting the use to which the scheduled land may be put; and
- (b) the effect of any prohibition, restriction or requirement imposed by or under the Antiquities Act 1976 [Act 168] in relation to any ancient monument or historical site within the meaning of that Act on the scheduled land,

shall be taken into account.

(2A) In assessing the market value of any scheduled land which is Malay reservation land under any written law relating to Malay reservations, or a Malay holding under the Malay Reservations Enactment of Terengganu [*Terengganu En. No. 17 of 1360 (A.H)*], or customary land in the State of Negeri Sembilan or the State of Malacca, the fact that it is such Malay reservation land, a Malay holding, or customary land shall not be taken into account except where the scheduled land is to be devoted, after the acquisition, solely to a purpose for the benefit of persons who are eligible to hold the land under such written law.

(2B) (*Deleted by Act A999*).

(2BA) In assessing the market value of any scheduled land, where the information provided by the State Director of Town and Country Planning or the Commissioner of the City of Kuala Lumpur, as the case may be, under section 9A indicates that the scheduled land is within a local planning authority area, then the land shall be assessed by having regard to the specific land use for that land as indicated in the development plan.

(2c) In assessing the market value of any scheduled land which but for the acquisition would continue to be devoted to a purpose of such nature that there is no general demand or market for that purpose, the assessment shall be made on the basis of the reasonable cost to the proprietor of the scheduled land of using or purchasing other land and devoting it to the same purpose to which the scheduled land is devoted, if the Land Administrator is satisfied that this is *bona fide* intended by the proprietor of the scheduled land.

(2D) In assessing the market value of any scheduled land which is an estate land, or forms part of an estate land within the meaning of section 214A of the National Land Code [*Act 56 of 1965*], the market value shall not in any way be affected by the fact that it can be sold to one person.

(3) If the market value of any scheduled land has been increased, or is currently increased, in either of the following ways, such increase shall be disregarded:

- (a) an increase by means of any improvement made by the owner or his predecessor in interest within two years before the declaration under section 8 was published in the *Gazette*, unless it be proved that such improvement was made *bona fide* and not in contemplation of proceedings for the acquisition of the land;

(b) an increase by reason of the use of the land, or of any premises thereon, in a manner which could be restrained by any court, or is contrary to law, or is detrimental to the health of the inmates of the premises or to the public health.

(c) *(Deleted by Act A388).*

(3A) The value of any building on any land to be acquired shall be disregarded if that building is not permitted by virtue of—

(a) the category of land use; or

(b) an express or implied condition or restriction,

to which the land is subject or deemed to be subject under the State land law.

(4)–(5) *(Deleted by Act A388).*

Matters to be considered in determining compensation

2. In determining the amount of compensation to be awarded for any scheduled land acquired under this Act there shall be taken into consideration the following matters and no others:

(a) the market value as determined in accordance with section 1 of this Schedule;

(b) any increase, which shall be deducted from the total compensation, in the value of the other land of the person interested likely to accrue from the use to which the land acquired will be put;

(c) the damage, if any, sustained or likely to be sustained by the person interested at the time of the Land Administrator's taking possession of the land by reason of severing such land from his other land;

(d) the damage, if any, sustained or likely to be sustained by the person interested at the time of the Land Administrator's taking possession of the land by reason of the acquisition injuriously affecting his other property, whether movable or immovable, in any other manner;

(e) if, in consequence of the acquisition, he is or will be compelled to change his residence or place of business, the reasonable expenses, if any, incidental to such change; and

(f) where only part of the land is to be acquired, any undertaking by the State Authority, or by the Government, person or corporation on whose behalf the land is to be acquired, for the construction or erection of roads, drains, walls, fences or other facilities benefiting any part of the land left unacquired, provided that the undertaking is clear and enforceable.

Matters to be neglected in determining compensation

3. In determining the amount of compensation to be awarded for any scheduled land acquired under this Act the following matters shall not be taken into consideration:

- (a) the degree of urgency which has led to the acquisition;
- (b) any disinclination of the person interested to part with the land acquired;
- (c) any damage sustained by the person interested which, if caused by a private person, would not be a good cause of action;
- (d) any depreciation in the value of the land acquired likely to result from the use to which it will be put when acquired;
- (e) any increase to the value of the land acquired likely to accrue from the use to which it will be put when acquired;
- (f) any outlay on additions or improvements to the land acquired, which was incurred after the date of the publication of the declaration under section 8, unless such additions or improvements were necessary for the maintenance of any building in a proper state of repair and unless, in the case of agricultural land, it is any money which has been expended for the continuing cultivation of crops on it.
- (g)–(h) *(Deleted by Act A388).*

Limitation on award

4. Where at any inquiry made by the Land Administrator under section 12, or in any statement in writing required by the Land Administrator under subsection 11(2), any person interested has:

- (a) made a valuation of or claimed compensation for any land or any interest therein, such person shall not at any time be awarded any amount in excess of the amount stated or claimed;
 - (b) refused, or has omitted without sufficient reason to be allowed by a Judge, to make a claim to compensation, such person shall not at any time be awarded any amount in excess of the amount awarded by the Land Administrator.
